Team Description:

Hector stands for **H**eterogeneous **C**ooperating **T**eam **O**f **R**obots. The team's mission is to research and develop heterogeneous search and rescue robots cooperating with each other and a remote human supervisor to achieve a common mission. After several years of successful research and development in mobile ground and aerial search and rescue robotics, Team Hector very recently started to research and develop advanced legged locomotion and manipulation abilities for humanoid disaster response robots.

Sponsors:

Selection of scenario:

- Exploration
- Manipulation
- Search and Rescue
